DETAILED ACTION

Claims 1-5 are pending in this application.

Action Summary

1. The rejection of claims 1-5 under 35 U.S.C. 103(a) over Arnold in view of Current Therapy is hereby withdrawn with respect to the boards decision.

Statement of Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious a method of inducing spinal anesthesia comprising administering spinally a small but anesthesia producing amount of 6-[2-(1(2)H-tetrazole-5-yl)ethyl]decahydroisoquinoline-3-carboxylic acid or a pharmaceutically active analogue thereof. It is the position of the Board of Patent Appeals and Interferences that Arnold does not teach using the compound as an anesthetic but rather as an analgesic. It is pointed out that the difference is that an analgesic is a compound that decreases pains, whereas, an anesthesia is a compound that completely blocks motor and sensory response during surgery.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1616

Conclusion

3. Claims 1-5 are allowed.
